

AL HILTZ

Al Hiltz is a professional photographer based in Arlington MA. He is best known for his work capturing images of abandoned places and night photography. This particular piece "Please Step Down" received the Award for Photography at the NAA 2010 Fall Juried Exhibit. In describing the work, Juror, Ron Crusan, Art Director at the Ogunquit Museum of Art said, "The formal qualities of the composition that the artist employs to record the palimpsest of a decaying building makes for an interesting photograph. As in a formal family portrait, one wonders what goes on in the minds behind those smiling faces. In this case, what has happened during the many lives of this building, those who boarded up the doors and windows, and many layers of peeling paint".
