

LINDA A. TASKER

Artist Statement

My way of passing the time as a child was drawing and the love of art grew from that beginning. I mostly focused on drawing and sculpture when I was in college. But, after many years of living life and only being able to think about art, I decided to try color when I could jump back in to the art world. I work with oils and pastels. I love mixing color! I work from real life, photos and whatever comes out of my spirit. My subject matter is unlimited, I just want to paint everything I see.
