

# SANDRA CHASE MORRISSEY

"Living and Painting in Color"

*Artist Statement*

2020

*My artist mission is "Sharing Colorful Thoughts Through Art". My vibrant artwork reflects my love of color combinations and highlights my atypical painting technique, with eye catching acrylics on canvas.*

*In my new Maine artist studio, full of natural sunlight, I paint and dance to lively music while I create my artwork. My favorite paintings are those that have challenged by creativity and I work on, with layers of paint, until I love the result. My satisfaction with one painting creates ideas for the next painting. I paint almost every day and work on several paintings of varying subjects at a time. I am constantly learning and growing in my art and I love it!*
