

## Kelly Kieslich Page

While growing up in Burlington, Vermont, I was mesmerized by season after season of awe-inspiring scenery. I'd walk the beaches of Lake Champlain experiencing so many gorgeous sunsets that I began to realize that the feelings involved could be sustained by taking a picture. Certainly, living here now on the North Shore, I continue to be enamored by my location! Influenced by my parents to witness and appreciate things for their beauty by design and function, I came to admire décor, architecture, landscapes, graphics, clothing and florals. I'm happiest as an artist when involved with creating and arranging, using elements of shape, texture, space, contrast and color.

*"I am not interested in taking pictures of new things...  
I am interested to see things new." - Ernst Haas*

My intention with photography, is so people may view something or have a thought they haven't associated with an image before. When capturing a familiar sight in a unique way by using angles, filters, lighting, tone and even "loose" focus (which I refer to as the painting effect), I hope to build an awareness of how a picture can be seen differently whenever it is looked upon.
